

ENDUREX™ 300 SERIES

Nudo's Endurex line of exterior architectural products focuses on extending the life of the building. The Endurex 300 Series is comprised of a 1/4" stabilizer sandwiched between two sheets of aluminum. Various aluminum, core and finish options provide design flexibility to meet your building envelope requirements.

CHOOSING THE RIGHT CORE AND FINISH

Nudo offers the widest range of core/stabilizer and finish options available. This ensures you the best possible solution and longest lasting panel for your building, storefront or curtain wall. Review all the Endurex 300 Series offerings to find the right choice for your building requirements.

ONLY NUDO OFFERS THE ENDUREX 300 PANEL

Endurex 300 is the only 1/4" glazing panel that offers a solid plastic core that will not absorb moisture and yet offers exceptional impact resistance.
